

Iowa Department of Inspections, Appeals and Licensing

Farmers Market Food License Application

Iowa law prohibits a food establishment (including an Annual Farmers Market Food Establishment) from opening or operating until a license has first been obtained from the appropriate regulatory authority. Penalty Fees will be assessed for operating without the appropriate licensure.

A “Farmers market time/temperature control for safety food license” means a license for a temporary food establishment that sells time/temperature control for safety foods at farmers markets. A separate annual farmers market time/temperature control for safety food license is required for each county in which the licensee sells time/temperature control for safety foods at farmers markets. The license is only applicable at farmers markets and is not required in order to sell wholesome, fresh shell eggs to consumer customers.

Completed applications and documents must be submitted at least **30 days prior** to the anticipated opening date. An Annual Farmers Market Food License is issued on a statewide basis. One Farmers Market license per food stand must be obtained OR a Temporary Food Establishment license must be obtained if you do not hold a Farmers Market license. Farmers Market food establishments that operate simultaneously at more than one location within the state are required to have a separate license for each location.

Once the application, other required documents and appropriate fees are received and processed, the Department will review the information to determine if an Annual Farmers Market License may be issued.
